RANGER 450

FLOOR SAW

High capacity saw with a heavy-duty steel chassis, this rugged machine meets demands of tough materials and applications for long and trouble free operations.

The Ranger 450 is a very productive saw for all floor and road applications in concrete and asphalt. Accurate control and good stability ensures smooth cutting and reduces blade wear.

An ideal machine for rental and endurance.

BUILDING A SUSTAINABLE FUTURE.

FEATURES & BENEFITS

- Accurate easy moving 'hand Wheel' depth adjustment.
- Corrosion resistant water tank 60 litres.
- Easy to operate and accelerate efficient weight distribution.
- Central lifting points and handles fitted as standard.
- Cutting depth gauge with indicator for both 400 & 450 mm blades and cut-pointer guide as standard.

EASILY ACCESSIBLE BLADE

LARGE 60LTR WATER TANK

POINTER GUIDE FOR IMPROVED ACCURACY
